

A SPECIALISED ALTERNATIVE ASSET MANAGER

Manager of two live, SEC-regulated funds and a growing portfolio across energy, housing, mobility, and agriculture.

Introduction

FundCo Capital Managers is a specialised alternative asset manager mobilising and investing local capital in real assets that lead Nigeria's transition to a low-carbon economy. As demand for asset allocation to alternatives continues to increase, alternatives are becoming more valuable relative to conventional assets, while supply remains insufficient.

Transitioning to a sustainable development path remains an existential imperative for meeting Nigeria's infrastructure development needs, and institutional investors continue to need specialist asset managers to show the right path. FundCo is authorised and registered by the Nigeria Securities & Exchange Commission to conduct the business of a fund/portfolio manager.

At a Glance

2	Live, SEC-regulated funds under management
6	Portfolio companies across energy, mobility & agriculture
NGN 2.12bn+	Capital raised to date by the Housing Solution Fund
21,000+	tCO2e emissions avoided by the Clean Energy Fund

Mission & Vision

Our mission is to innovatively unlock domestic finance for small and medium-sized infrastructure in unserved or under-served sectors that provide essential services to society, are recession resilient, demonstrate long-term viability with predictable cashflows, and reduce the impact of climate change.

Our range of strategies and opportunities are tailored to preserve and grow institutional investments in sustainable infrastructure assets alongside proactive management of environmental, social and governance (ESG) considerations.

Target Sectors

Housing	Energy	Agriculture	Education	Healthcare
---------	--------	-------------	-----------	------------

Investment Approach

Our investment approach holds great potential to deliver the three pillars of the SDGs: economic, environmental and social sustainability. We do this in partnership with development partners, thought-leaders in blended finance, infrastructure, technology, and development finance to drive innovation beyond conventional asset management — anchored to UN Sustainable Development Goals 1 (No Poverty), 7 (Affordable & Clean Energy), 8 (Decent Work & Economic Growth), 11 (Sustainable Cities) and 13 (Climate Action).

Target Funds

FundCo now manages two live, regulated funds — both structured, funded, and governed under FundCo's mandate to accelerate Nigeria's transition to a low-carbon economy.

Clean Energy Local Currency Fund (CeF)

A local-currency climate infrastructure fund, Climate Bonds Certified and rated BBB (national scale, Stable outlook) by both GCR and Agosto & Co. CeF mobilises domestic institutional capital into mini-grids, solar, clean cooking, telecom, and e-mobility, operating through the Clean Energy Funding Programme (CEFP) in partnership with InfraCredit, which provides AAA-rated guarantees.

Impact to date: 21,000+ tCO₂e emissions avoided · 370+ jobs created · 200+ SMEs supported · 5,000+ new energy connections enabled.

Housing Solution Fund (HSF)

Nigeria's first privately managed housing-focused Real Estate Investment Trust (REIT), registered with the Securities & Exchange Commission (SEC/REIT/HSF/2021). HSF provides long-dated affordable home loans (up to 25-year tenure) combined with developer offtake commitments, financing EDGE-certified (green-building) housing developments.

Track record: NGN 2.12bn+ raised to date, including a completed Series 1 issuance under its NGN 100bn debt programme · targeting 10,000+ new homes · 1,000+ jobs enabled through housing finance.

Portfolio Companies

Through the funds it manages, FundCo backs a portfolio of operating companies addressing distinct segments of Nigeria's energy, mobility, and agricultural transition:

Swap Station Mobility (SSM)	Battery-swap infrastructure for electric commercial fleets
Electrify Microgrid (EML)	Mini-grid power generation and distribution
GroSolar	Subscription-based distributed solar for homes and businesses
E-Mobilite	Electric vehicle fleet financing and battery-swap infrastructure
Regenloop	Biogas and waste-to-energy power generation
Agronomie	Agro-tech financing for clean-energy-powered agriculture

Fund Governance & Strategic Partners

CeF and HSF are each governed and supported by a network of trustees, custodians, registrars, auditors, and rating agencies, including **Stanbic IBTC** (Trustee), **Africa Prudential** (Registrar), **KPMG** and **PricewaterhouseCoopers** (Auditors), **UBA** (Custodian), **InfraCredit** and **Shelter Afrique** (strategic collaborators), and rating agencies **GCR** and **Agusto & Co.** Full governance detail is available at fundco.ng/partners.
